PROMOTION DES INVESTISSEMENTS PRIVÉS

PRIVÉ

Pilier 3

1. AQUACULTURE IN GRAND LAHOU

GENERAL	
PROJECT CONDUCT STRUCTURE	Prime Minister Office/ Ministry of Animal and Fisheries Resources
BACKGROUND AND RATIONALE	
<p>The Government of Cote d'Ivoire is keen to catalyze the growth of the aquaculture industry through the PSTACI program. This is to take advantage of the rapidly growing demand for seafood at more than 500,000MT per year.</p> <p>This will be achieved through the promotion of special sites designated as Sustainable Aquaculture Economic Zone (SAEZ) for the production of tilapia. The Grand Lahou area has been identified as a SAEZ site and various activities have been planned to support the development of aquaculture on this site. The project is now ready for investments into the grow-out of 2,000MT of tilapia annually in Grand Lahou SAEZ.</p>	
THE PROJECT'S OBJECTIVES	
<ul style="list-style-type: none"> - Catalyse the production of seafood in the country - Promote the development of successful aquapreneurs in Cote d'Ivoire - Reduce the importation of frozen seafood and provide quality locally-produced seafood to the population 	
PROJECT COMPONENTS	
<ul style="list-style-type: none"> • Establishment of grow-out cages • Grow-out operations 	
EXPECTED RESULTS	
<ul style="list-style-type: none"> • Minimum of 2,000MT annual production • Net profit > 22% • IRR > 30% 	
COST AND DURATION OF THE PROJECT	
Estimated cost of the project	USD3,100,000
Project duration	Overall duration 3-months to get into operations
Project location	Lake Koubi, Tiebissou
Number of direct jobs forecast	100 direct jobs
